

MIXER SOLUTIONS

for the concrete, construction and environmental industries

Since 1997, Standley Batch Systems has represented the entire range of **rapid** Pan, Planetary and Twin Shaft concrete mixers, high-pressure mixer washout systems and genuine spare parts in the North American market.

PLANETARY MIXERS

The planetary concrete mixer produces quality homogenized mixes and outputs from 0.375m³ to 3m³. It is ideal for small and large applications, precast, prestressed and concrete paver applications and mixing semi-dry colored concrete.

Benefits & Features

- ✓ Large output capacities range from .5 yds³ to 4 yds³
- ✓ Built to last
- ✓ Easily accessible motor and gearbox
- ✓ Spring tensioned mixing arms for safety
- ✓ Compact design allows for easy integration
- ✓ Perfect for precast, brick, glass, mortar, clay and more
- ✓ Optional extras such as starter panels, door proximity switches, a washout system and more
- ✓ Parts in-stock

PAN MIXERS

The Rapid Pan mixer is a high-capacity concrete mixer ideally suited for the ready-mix industry.

Benefits & Features

- ✓ Features durable chill cast wear sleeves and paddles
- ✓ Keeps all materials in constant motion
- ✓ Ensures homogenous mix in reduced timeframe
- ✓ Built to last
- ✓ Overload protection
- ✓ Maintenance-free driveshaft coupling for flawless synchronization of gearboxes
- ✓ Perfect for precast, brick, glass, mortar, clay and more
- ✓ More than 12 different add-on options
- ✓ Large output capacities from .75 yds³ to 5 yds³.

TWIN SHAFT MIXERS

The Twin Shaft mixer offers a robust and compact design with thorough mixing of all aggregates. It is ideal for ready-mix plants, precast plants and prestressed concrete plants.

Benefits & Features

- ✓ Fully integrated access and inspection hatches
- ✓ Heavy duty hydraulic-powered rams
- ✓ Ensures homogenous mix in reduced timeframe
- ✓ Fully integrated access and inspection hatches
- ✓ Maintenance-free driveshaft coupling for flawless synchronization of gearboxes
- ✓ Optional extras such as starter panels, door proximity switches, a washout system and more
- ✓ Large output capacities range from 4 yds³ to 6 yds³
- ✓ Parts in stock
